920.3. ~~In-Harness Horse Inspection~~

920. 2.7. For the use of whips during the First Horse Inspection, please refer to Article 1035.8 of the Veterinary Regulations

920.3. In-Harness Horse Inspection

920.3.1 This must take place at all Combined Driving events prior to the start of ~~Section A/Controlled Warmup~~ of the Marathon. One veterinarian is responsible for this Inspection.

920.3.4 If a horse entered in the Marathon is not presented at the In-Harness horse inspection, the athlete must be eliminated before the start of the ~~Section A/Controlled Warm-Up~~. **marathon**

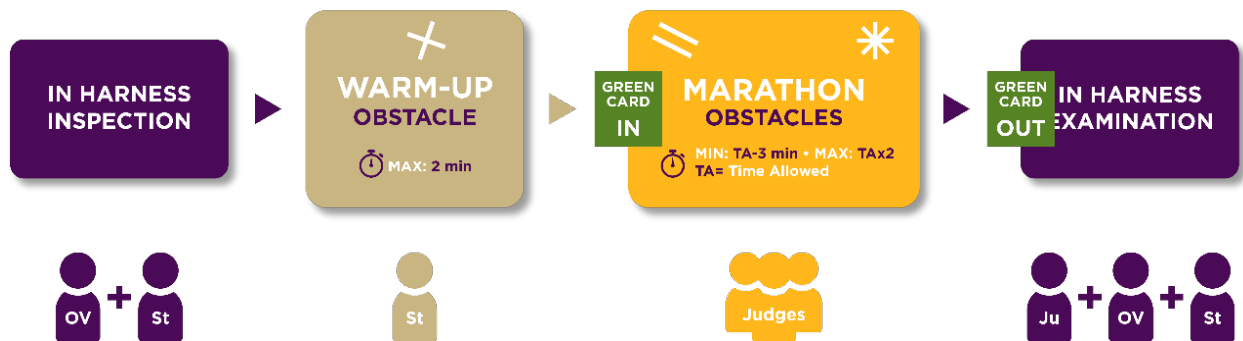

920.4. In-Harness Examination The examination must take place ~~between 10 and~~ **within** 15 minutes after the athlete has ~~entered the Cool-Down area at all events~~ **finished the marathon**. The horse(s) must be presented by the athlete. It must be performed under the supervision of a treating veterinarian in case any horse needs immediate treatment. The veterinarian has no authority to disqualify a horse. They must report their findings to the President of the Jury as soon as possible.

925.12.1. Horses/Ponies that are competing wearing hoof boots must present at the Horse Inspection wearing hoof boots. Hoof boots must be removed at the request of the Horse Inspection Panel to allow for evaluation of the Horse's hooves, where required.

927.4. At any time on the competition grounds, whenever horse(s) are connected to a carriage, no person under the age of ~~14~~ **10** may be on that carriage unless they are driving in a specified class.

928.2.4 The athlete is the only person allowed to handle the reins, use whip and brake, **not to include turntable brake**, throughout each competition. Each contravention of this rule, even if to prevent an accident, will result in 20 penalties. However, a groom may handle the reins and brake without penalty in all competitions provided the vehicle remains stationary.

943.2 Marathon – replace diagram with below

944.1.3 The Marathon Course must consist of ~~two~~ **one** sections (~~A and B or Controlled Warm-up and B~~) and a Cool Down in all classes and levels. ~~The Beginner division will not use a Section A, but can use a Controlled Warm-up.~~

944.1.4 The total distance in ~~Section B~~ **of marathon** should be approximately one km per obstacle and preferably not less than 700m between two consecutive obstacles. The total distance in ~~Section B~~ **of marathon** must include the distances through the obstacles.

~~944.1.5 The distances between the end of one section and the start of the next must not be included in the total length and time of the course.~~

944.1.7 Before the start of ~~Section B~~ **marathon**, a marathon-type warm-up, made of any material and situated in a separated area, must be provided. Each athlete may use the Warm-up obstacle for a maximum of 2 minutes. Grooms must be on the Carriage during the Warm-up Obstacle, failure to comply will incur a Yellow Warning Card. Grooms may dismount when the turnout is standing still with no penalty.

944.2 Table

Delete all references to speeds and distances for Section A and Controlled warm-up.

Add the following speeds to open advanced: Horses 12 – 14; Ponies 11 – 13

944.2.1. Pace in ~~Section A, B, and Controlled Warm-up~~ **on marathon** is free for all divisions, except the beginner and training division must only walk or trot in ~~Section B~~ **on marathon** including obstacles.

~~944.4.1 There must be a halt of 10 minutes in the designated Neutral area prior to the start of Section B. When Section A is a 'controlled Warm-Up', the halt must be reduced to 5 minutes.~~

944.4.2 The Neutral area of the halt should, if possible, provide some shade and must be large enough to accommodate three turnouts at once and have room for additional motor vehicles.

944.4.3 Water must be provided at the Neutral area for the horses.

944.4.4 A farrier must be available at the start of the Marathon.

944.4.7 Turnouts may stand, walk, or trot within the Neutral area.

944.5.1 The beginning and end of each section **the marathon** must be marked with a pair of red and white flags.

944.5.3 Sections A and B **Marathon** must have a marker at every kilometer. In Section B the measurement of the kilometers **and** must include the distances through the obstacles.

944.7.1 The finish of Section B **marathon** must not be more than 300m from the exit of the last obstacle unless the Technical Delegate grants an exception. If the last obstacle is situated within 300m of the finish, the Athletes may stop within 30m of the out gate of the obstacle to repair a broken or detached harness without penalty. A 30m marker will be placed on the track to indicate this point if the last obstacle is within 300m of the finish.

944.8. Cool Down Area

944.8.1 At the end of the Section B, a Cool Down area (Arena, Loop or track) of between 800 m and 1200 m in size must be installed. The In-Harness examination, as per DC 920 must be performed between ten and fifteen minutes after the athlete has entered the cool down area. The groom(s) may walk besides the carriage, and additional support personnel may be present in this area. The only penalty that can be incurred in the Cool Down Area is elimination, if the athlete leaves the area before presenting their horses. Brushing boots and bandages may be removed from the horses. After the horses have been examined and cleared by the veterinarians, turnouts must leave the Cool Down Area.

945.2. Sketches of Obstacles Accurate sketches of each obstacle, showing the location of the compulsory gates, dislodgeable/detachable elements and entry/exit flags must be made available to athletes, team and event officials before the first inspection of the course. In order to avoid Athletes driving a dangerous and unsafe route through an Obstacle, the Course Designer may draw a double line of any color on the course map and on the ground to indicate a track which cannot be crossed at any time by an athlete. If the athlete crosses the area of the course marked by the double line, they will incur 20 penalty points. A Course Designer cannot draw more than 8 double lines on the course map in total. The double lines to be used in the course must be drawn on the ground at least 48 hours before the first start of the Marathon competition.

946.4.3.1 At least 48 hours before the first athlete is due to start Marathon, the whole course must be open for inspection by the athletes, ~~except under exceptional circumstances, when organizers have the option not to open Section A for inspection, with the agreement of the Technical Delegate.~~

946.3.3 The course is closed for inspection from the time the first athlete starts ~~Section A or Controlled Warm-up.~~ The obstacles in Section B may be left open until the first athlete starts ~~Section B.~~ **the marathon.**

946.3.4 ~~Athletes using motor vehicles must remain on the roads and tracks designated by the Technical Delegate.~~ **Only one person per turnout is allowed to follow/accompany the turnout on the ground, in between obstacles using the same track as the turnout. The use of bicycles for this purpose is allowed. The use of bicycles on the track may be restricted by the OC.**

947.1. Timetable

947.1.1 A timetable showing the **marathon** ~~start of Section A or Controlled Warm-up~~ and the time table of ~~each Section, including the halt,~~ must be drawn up by the Organizer for the Ground Jury and Technical Delegate **and distributed.** It must be adjusted in the event of unforeseen circumstances and redistributed.

947.1.2 ~~A timetable showing the starting time for each athlete on Section A or a Controlled Warm-up must be provided to the athletes and the timekeeper at the start of Section A. Running order lists must be provided to all other timekeepers, ground observers and obstacle observers.~~

947.2. Times in Sections **the marathon**

947.2.1 ~~The Time Allowed in all Sections~~ is calculated according to the average speed selected for that Section.

947.2.2 ~~The Minimum Time in Section A is two minutes less than the Time Allowed.~~

947.2.3 ~~The minimum time in a Controlled Warm-up is two minutes less than the time allowed.~~

947.2.4 The Minimum Time for ~~Section B~~ **the marathon** is three minutes less than the Time Allowed.

947.2.5 The Time Limit for ~~Section A and Controlled Warm-up~~ is the Time Allowed plus 20%. The Time Limit for ~~Section B~~ is twice the Time Allowed.

947.2.6 ~~The time limit in the Cool Down area is minimum of 10 minutes and maximum of 15 minutes.~~

947.2.7 An athlete who exceeds the time limit ~~in any section~~ will be eliminated.

947.3. Timing

947.3.1 Electronic timing equipment should be used for the timing of athletes in ~~each Section~~ **the marathon** and the obstacles, whenever possible.

947.3.2 Time Keepers at the start and finish of each Section must record the start and finishing times for each athlete on the Section Timer Record and enter the time on the Athlete's Marathon (Green) Time Card.

947.4. Start and finish for ~~Section A, Controlled Warm-up, B, and Cool Down~~

947.4.1 ~~Athletes should be at the start of Section A or the Controlled Warm-up at least 10 minutes before their published Start Time.~~

947.4.2 If an athlete is not ready to **at the start** ~~Section A or the Controlled Warm-up~~ **of the marthon** at their scheduled time, the Timekeeper will start the athlete at the earliest available time at their discretion, and record the actual starting time, which must be reported to the Technical Delegate and President of Jury, for onward transmission to the Scorer, at the earliest opportunity. The athlete will be penalized 0.25 of a penalty per second of the time elapsed between their scheduled start time and the time they were ready to start and the athlete must not be allowed to start less than 2 minutes before the next athlete's starting time. For the avoidance of doubt, athletes will not be penalized where the start of ~~Section A~~ is delayed for organizational reasons.

Athlete must start ~~each section~~ **the marathon** from the halt with the leading horse behind the line. The Timekeepers will count down to the start time. If an athlete starts before the Timekeeper gives them the authorization, the athlete will be recalled, a new start will be given and the Marathon Time Card will be amended. If the athlete fails to stop they may be eliminated. A member of the Ground Jury must be made aware of the circumstances as soon as possible.

947.4.3 The timing of the ~~section~~ **marathon** ends when the nose of the leading horse has passed the finish line. Section penalties will apply until the whole turnout has passed the finish line.

947.5. Time Penalties in the ~~Sections Section A, Controlled Warm-up, and Section B~~ **marathon**

947.5.1 ~~In Section A, Controlled Warm-up, and Section B~~ athletes will be penalized 0.25 of a penalty per second for exceeding the Time Allowed. Athletes completing ~~Section A, Controlled Warm-up, and B~~ in less than the minimum time will be penalized 0.25 of a penalty point for each second they are early.

948.4. Dismounting in the sections

948.4.1 During ~~Section A, Controlled Warm-up and Section B~~ **the marathon** (except inside the Obstacles), grooms and athletes are not allowed to dismount unless the carriage is stationary. If the vehicle is not stationary, either or both groom(s) dismounting will incur 5 penalties, the athlete dismounting will incur 20 penalties.

948.4.2 In the Cool down area, grooms and additional personnel maybe present to remove boots, attend to horses, and add assistance when needed. Only grooms and additional personnel who are assisting may be present during the cool down period.

948.4.3 The athlete and all grooms must be on the carriage as it crosses the start and finish lines and passes through the Compulsory Turning Flags ~~in each section (Section A, Controlled Warm-up, and Section B)~~. Failure to do so incurs 5 penalty points for grooms and 20 penalty points for athlete on each occasion.

948.5.3 If an obstacle is situated within 300m of the finish line, an athlete is allowed to stop to carry out necessary repairs as long as they stop within the signed 30 meters after leaving the last obstacle to make necessary repairs to the harness or carriage without penalty. Stopping for any other reason between the last obstacle or the 300m sign, whichever is closer to the finish line ~~in Section B~~ will incur 10 penalties for each occurrence.

948.6. Damaged Carriage/Harness

948.6.1 At the Finish of ~~Section B~~ **the marathon** any missing or disconnected trace, pole strap, or reins will incur 10 penalties for each occurrence.

948.6.2 At the Finish of ~~Section B~~ **the marathon** a broken or disconnected pole or shaft or bit will incur elimination.

948.6.3 Carriages must pass the finish of ~~Section B~~ **the marathon** drawn by the number of horses required for the designated class and on the designated number of wheels. Failure to comply will incur elimination. Broken or missing tires are acceptable.

~~949.2.7 An Athlete is not considered as having crossed a double line as per DC 945.2 until the whole turnout has crossed the double line.~~

950.1. Positions

~~950.1.1 At the compulsory halt before Section B, based on the advice of the veterinarian, a Judge shall decide whether the horses are in a fit condition to continue the competition.~~

950.1.2 One member of the Ground Jury must be at the ~~Cool Down area~~ **finish** to supervise the inspection of carriages, harness and Marathon Time Cards and when applicable to supervise the weighing of the carriages. An athlete whose carriage is below the prescribed weight will be eliminated. (See DC922.4)

~~950.1.4 Members of the Ground Jury at the end of Transfer or Section B~~ **finish** are not required to assist the veterinarian in pulse and respiration checks. Organizers should ensure sufficient volunteers are available to assist the veterinarians.

951.2.2 The Timekeeper at the start of ~~Section A or Controlled Warm-up~~ **the marathon** must be issued with the starting time schedule and should ensure that athletes have been given a Marathon Time Card (Green Card).

951.2.4 Timekeepers are required to record the start and finish times for their respective Section and to enter them on the athlete's "Marathon Time Card" and the "~~Section~~ **Marathon** Timer Record".

952.1.1 The total time taken by the athlete in the Obstacles will be recorded to 1/100 second and penalties will be calculated to 2 decimal places. Any time over the Time Allowed in each of the Sections will be added together and **on marathon will be** multiplied by 0.25. Any time under the Minimum Time in ~~Sections A and B~~ **on marathon** will be multiplied by 0.25. There shall be no rounding of times. The penalties for under Minimum Time; plus penalties for over Time Allowed and the total obstacle times **multiplied by 0.25** shall be added to any other driving penalties received to determine the final score for each athlete in Marathon.
